ARCAM

BRINGING MUSIC AND MOVIES TO LIFE WITH THE NEW **BDP100 BLU-RAY PLAYER**

When Arcam launched its first DVD player nearly ten years ago it was the first player to combine class leading picture quality with true audiophile sound quality. Since that time Arcam has earned a worldwide reputation for combining exceptional music and movie playback in a single device and is now proud to announce the arrival of its first Blu-ray device, the *BDP100*. This new player offers a level of movie and music reproduction that few disc players, of any price, can match and is designed to deliver an experience to thrill even the most demanding of audiences.

- Class leading Blu-ray player
- Audiophile grade CD music playback
- Wolfson 8741 audio DAC
- Blu-ray profile 2
- IR and full duplex RS232 Control
- Stunning picture and sound
- Fast load speed
