

ARCAM

Bring all your sources to life with the new...

rDAC

AUDIOPHILE GRADE
DIGITAL TO ANALOG CONVERTER

rDAC

Arcam produced the world's first Digital to Analog converter over 20 years ago and has enjoyed a world wide reputation for excellence in digital audio ever since. Now there's a multitude of digital sources available such as DVD, CD, Blu-Ray and of course the computer and Arcam is back to make them all sound even better with the rDAC. Add it to your system today to bring your music and movies to life.
